

STAR Math Fall 2018

STAR Math is an online adaptive assessment program from Renaissance Learning for math in grades K-12, including basic math, algebra, geometry and statistics. The program is used to determine a student's overall math ability as well as identify a student's individual strengths and areas of growth. The following is based on Fall 2018 test data. A scaled score is calculated based on the difficulty of questions and the number of correct responses. Because the same range is used for all students, scaled scores can be used to compare student performance across grade levels.

STAR Math	National Mean	Archdiocese of Santa Fe	Holy Child
Grade 3	500	562	620
Grade 5	651	703	759
Grade 8	785	832	855

STAR Reading Fall 2018

Star Reading is an online assessment program developed by Renaissance Learning for students typically in grades K-12. The program uses a combination of the cloze method and traditional reading comprehension passages to assess forty-six reading skills across eleven domains. The program is used to determine a student's overall reading level as well as identify a student's individual strengths and areas of growth. The following is based on Fall 2018 test data. A scaled score is calculated based on the difficulty of questions and the number of correct responses. Because the same range is used for all students, scaled scores can be used to compare student performance across grade levels.

STAR Reading	National Mean	Archdiocese of Santa Fe	Holy Child
Grade 3	353	413	470
Grade 5	558	672	823
Grade 8	906	979	1165
